### **INVESTOR OWNER APPLICATION**

#### **LEAD HAZARD CONTROL/HEALTHY HOMES PROGRAM**

The Malden Redevelopment Authority administers a loan program which provides financial assistance to owners of single and multi-family properties to remediate lead-based paint hazards. Funding is provided by the U.S. Department of Housing and Urban Development's Office of Lead Hazard Control and Healthy Homes. The program is available to owner occupants and investor owners.

The MRA will provide up to \$9,650 per dwelling unit to perform lead hazard control work. A zero percent deferred loan forgivable after three years will be offered to owners of one to four-unit properties (owner occupied and investor owners). Owners seeking assistance for multi-family properties with five or more units will receive a zero percent, deferred loan with 75% of the loan amount forgivable after three years. The remaining 25% will be amortized at zero percent over a 10-year repayment period.

**Owners participating in the lead hazard control program are also eligible to receive additional funding to replace lead water service pipes.**

In order to receive financial assistance, Owner Occupants or Tenants of Investor Owned properties must meet the national objective of HUD and qualify as a Low to Moderate Income Household based on the area median income for the current fiscal year. In addition, properties receiving assistance must comply with the Fair Market Rents established by HUD.

If an application is denied, the applicant will receive a letter from this office explaining the reasons for denial and the process for reapplying if circumstances change.**

**Applications are subject to credit approval. By completing this application, you authorize the MRA to request a full credit report from one of the three major credit bureaus. If you need assistance in completing the application, please call this office at 781-397-1940.**

## **Lead Safe - Letter of Interim Control**

Lead Safe is the result of making surfaces intact, free from chipping, peeling, scaling and flaking paint. This can be done by a low risk deleader who has passed the basic test put out by Childhood Lead Paint Prevention Program (CLPPP).

A letter of interim control means a written statement, signed, dated and issued by a risk assessor, certifying that a dwelling unit and common areas are determined to be in compliance with, for the limited time allowed by Massachusetts General Law (MGL).

Interim control is a set of temporary measures that property owners can take to correct urgent lead hazards, especially peeling or chipping lead paint and lead dust, and protect occupants from lead poisoning until the home is fully deleaded. The original letter of interim control is good for one year. The property owner can have the home reinspected before the end of that year, and if all conditions are met, the home can be recertified for another year.

## **Full Compliance**

To achieve full compliance, owners of residences built before 1978 must have the following conditions corrected:

- Any peeling, chipping or flaking lead paint, plaster or putty;
- Intact lead paint, varnish, stain or putty on moveable interior or exterior parts of windows with sills five feet or less from the floor or ground and those surfaces that come in contact with moveable part;
- Intact lead paint, varnish or stain on “accessible mouthable surfaces.” These surfaces generally include woodwork, such as doors, door jambs, stairs and stair rails, window casings, etc.

A letter of Full Compliance means a written statement, signed, dated and issued by a licensed lead paint inspector certifying that the dwelling unit and common areas fulfill the requirements of MGL.

I/We \_\_\_\_\_ have read and understand the difference in the two (2) Lead Programs offered by the Malden Redevelopment Authority.
